## THE EVENING NEWS.

MICHIGAN M. & M. Co. - After four years of steady prospecting, the Michigan Company, at Gold Hill, last week struck a fine ledge of quartz, which bids fair to amply recompense its owners for all the money and labor expended. From the mouth of the shaft to the lower level is about four hundred feet; from this level a drift has been run, in which the ledge has been struck. Seven feet have bee run into the ledge, and the eastern wall has not yet been reached. Several tons of rock have been extracted, but the great influx of water has prevented it, so far, from being hoisted to the surface. The rapidity, however, with which the pumps are gaining on it, will soon overcome this obstacle, and then we will have the gratification of adding one more to our already good sized list of dividend paying claims. The Michigan, we believe, is the first com-pany in Gold Hill that made a location for a quartz ledge, having done so in '59 -at a time when the other rich companies now there had merely made locations for surface diggings. About a year ago good hoisting works were erected, which are still in operation. We examined the mine vesterday, and the rock we were shown looks in all respects like that of the Imperial, a little further north. This develop-ment affords another incontrovertible proof of the wealth contained in our hills.

YE DEMOCRACIE.-The Central Committee of ye fierce Democracie of Virginia, held a meeting last evening, to fix up a "slate" for the election. We believe this step is right, for we should be exsorry if we voted for a single candidate on a Union Ticket who could command the votes of the "played out" gang known as the Democracy of the present day. Let them vote their own ticket, and not cast any of their political odium upon the skirts of true Union men. There is a report out that these Buzzard-Roosters have suddenly become the especial advocates and defenders of the Judges of our courts; at which we are not in the least surprised. Dr. McMeans being the leader of the Copperheads, possesses in his own character, acquired as a defaulter to the people of California in many thousands of dollars, all the elements necessary to defend any one accused of bribery and corruption. Let each party, faction, and clique, show its "hand," and the people will shuffle the cards to their own stisfaction. The game is commenced-Roll!

STRUCK IT.—The Atlantic Gold and OF ALL COMPANIES WHOSE OFFICES ARE IN GOLD HILL, VIRGINIA, AMERICAN CITY, SILVER CITY, Silver Mining Company, situated in Devil's Gate District, have struck their ledge and are now taking out some very fine looking ore. In the first place they run in a tunnel some 160 feet, and then sunk 50 feet, when they struck water, and were compelled to change their "base of oper-They then sunk another shaft to the depth of 80 feet, and drifted 130 feet, where, after passing through a ten foot wall of clay and quartz, they struck the ledge. This claim was located in the spring of 1860, and is 1,800 feet in extent. The ledge pitches east, and promises to turn out rich. Three shifts of hands are now at work, and the Superintendent feels confident that they have got a "good thing."-Union.

THE FIREMEN'S BENEFIT. - The performance by Wilson & Zoyara's Circus, last night, for the benefit of the Fire Department of this town, was decidedly a big thing, both in the way of a performance and a benefit. The immense pavilion was crowded to its utmost capacity, it appearing as though everybody in town was there with his wife and family. Eagle, No. 3, and Young America, No. ginia, were both represented by respecta-ble delegations. We are not informed as to the exact result in dollars, but it must have netted the firemen a very substantial

PERSONAL .- The Secretary of the Territory, Orion Clemens, Esq., came up from Carson City yesterday. Orion looked dusty and careworn, probably the effects of the heavy responsibility resting upon him in managing that comic Territorial seal, to-wit—the drunken miner celebrating the Fourth of July.

PARDON TO JOHNSON .- Capt. Johnson, who killed Horace Smith in Virginia, last fall, and was sentenced to the Penitentiary for a term of years, has been pardoned out by Gov. Nye.

THE BALL LAST NIGHT .- The Ball at the Turn Verein Hall, last night, for the benefit of the Catholic Church, was largely attended, and was a most decided suc-

AN EFFICIENT GOVERNOR .- Indiana is blessed with a Governor who, being deserted by the Legislature, is able "to run the mahine alone." It is well known that in 1863 the Legislature of that State refused to make appropriations even for the interest on the State debt. Resolved not to call the disloyal body together again to distract the State by its proceedings, Governor Morton established a "Financial Bureau," and proceed on his own responsibility to raise the money to earry on the State Government. By means of the Bureau he collected and borrowed money enough to keep the machinery of Government in motion, to meet the interest on the State debt, and to carry on the recruiting. He borrowed nearly \$400,000, collected from the United States for military stores \$340,000, ann for militia services \$140, 000. The Bureau disbursed over \$600,000, and now has on hand about \$250,000. For all these loans the honor of Indiana is pledged, and a loyal Legislature will some day provide for them. Not many States can boast of a Governor who is thus able to carry on the State Government efficiently in the face of the hostility of the Legislative branch.

ROUGHS .- The Esmeralda Union says of the "roughs" of that section: This dange ous class of men, who for three years have been the terror of this community, have most ly disappeared from our midst and sought other fields of operation more congenial and better adapted to their peculiar avocations. Many of them have gone to Virginia City, some to Idaho Territory and not a few to Mexico, while a considerable number of them have met with violent deaths and gone-where ordinary fuel is supposed to be a superfluity. A few of the villainous gang still remain, but they have been taught to respect the majesty of the law and no longer dare cut and shoot with impunity. The more orderly and shoot with impunity. The more orderly and law-abiding citizens are now the "chiefs" and it is no longer considered danger us for nest men to venture into the streets after night without carrying a whole arsenal about

A CHILD THAT TALKED AT BIRTH .-The Troy (N. Y.) Whig has the following: "South Troy is just now agitated by the stories told about a child that talked at birth. It prophesied that a comet was coming in a few weeks and was going to give us a terrible drouth, and that in consequence of its disarrangement of atmospheric laws there would be a five years famine The war was to end next year according to the inspired baby's prophesy.

There are numbers who have seen the talking child and insist upon the truth of

THE rebel papers tell of a soldier, whose brains were shot away, asking the sur-geon what he thought of his case. An exchange thinks it something very re-markable. We can't see it in this light. We know several people who have a vacuum in that region, and who seem to get along very well, without troubling themselves to inqure what people think of

SEITH O'BRIEN.—Thirty thousand Irish people, irrrespective of religion, attended the funeral of the late Smith O'Brien, who, though a member of the Church of England, was well beloved by his Catholic countrymen.

To the Citizens of Gold Hill. A T A MEETING OF THE BOARD OF TRUS-tees of the Town of Gold Hill, held July 30th, 1884, the Clerk reported, that owing to the fact that the Treasurer had been unable to negotiate for the sale of boxis to complete the Reservoir and lay the reserver wine, it would be necessary to ston, the work water pipe, it would be necessary to stop the work until such time as the bonds can be sold.
